Dear Mr. Walsh:

Enclosed is a copy of the groundwater monitoring report for the Nemo Work Center for the October 2006 sampling event.

We brought the groundwater treatment system on line in November 2006. Due to start up testing and system modification, we did not go into a full pump and treat regime using all seven production wells until March 21, 2007.

We have scheduled another round of groundwater sampling for the week of April 23, 2007. We plan on taking samples on a quarterly schedule from that date forward.

Please contact Rusty Wilder at (605) 673-9268 if you would like additional information.

Sincerely,

/s/ Craig Bobzien
